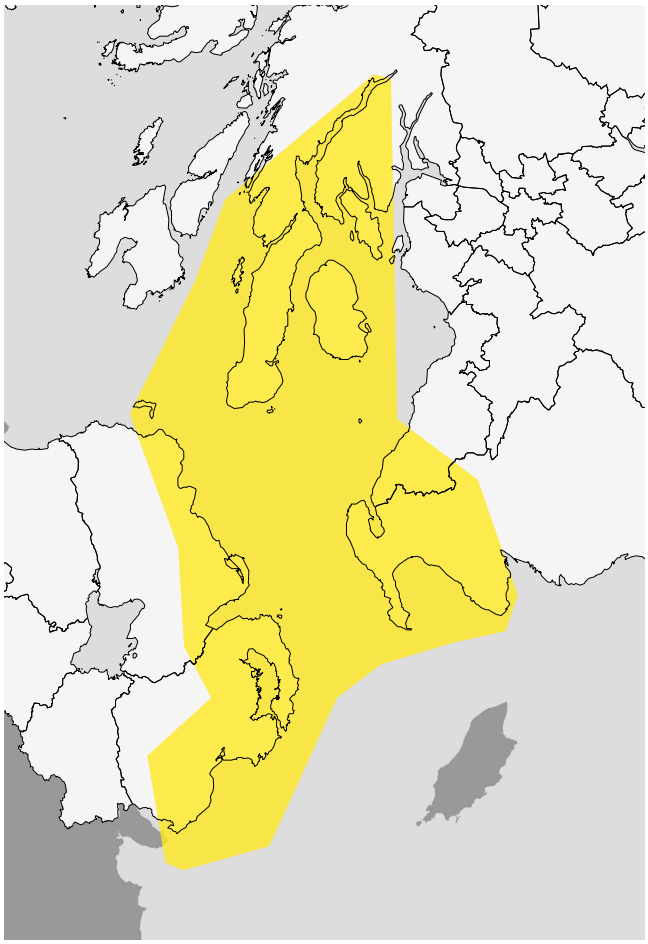
Yellow warning
Rain

Between
16:00 Thu 8 Nov 2018 and
04:00 Fri 9 Nov 2018



Heavy rain over parts of Northern Ireland and southwest Scotland.

What to expect

- Where flooding occurs, there is a chance of delays or cancellations to train and bus services
- Spray and flooding could lead to difficult driving conditions and some road closures
- There is a small chance that homes and businesses could be flooded, causing damage to some buildings

Further details

A narrow zone of heavy rain is expected to develop over the Irish Sea during Thursday and affect some adjacent regions later on Thursday and during the early hours of Friday. Eastern parts of Northern Ireland and parts of the far west and southwest of Scotland may well see some heavy rain, especially in coastal areas. There is the possibility of 20 to 40 mm falling in some places. However, the narrowness of this zone of heavy rain will allow some parts of the warning area to escape the worst of the rain.

Very low likelihood of medium impacts

Issued at 09:19 Thu 8 Nov, 2018
